Had the most amazing deluxe package here this morning:

2.5hr package which included remedial massage, facial and neck message, acupressure points, cupping for detoxification and foot massage and reflexology.

Can't believe how quickly the 2.5hrs went, but I've never had anything done to that extent ever and the last massage I had was probably over 10 years ago.

So the best 2.5hrs and well needed.

And money well spent ❤️❤️❤️

Had my first ever massage here today and was completely blown away. I am in awe at how truly amazing the massage was! Stunning interior, professional and kind staff members, and good value pricing. Would recommend this massage salon to anyone! 10/10

Very very very good. On time. Warm bed. Not rushed. Experienced masseuses. Always wary of the day spas as they usually don't have experienced masseuses and so was looking for somewhere local that was not high end. These guys provided high end massages. Will come back!

I had a fantastic experience! The therapist is friendly and skilled. I told her I feel sore of my shoulder and neck. She treated very well. After the massage, I felt relax. I will come back again for sure

I would like to thank the guys at Daylesford traditional Chinese massage, the day before I really hurt my back and didn't think that would make it to work on the Monday after an hour of manipulation and massage on my back it is 85% better and Will make it to work on the Monday, they are very professional and friendly and professional. I would highly recommend these guys absolutely brilliant!

I did the Relaxation 60 min massage. Practitioners are very professional and experienced. My therapist was Belle and she helped with neck and low back pain. She was absolutely amazing and I could see that she knew exactly what she was doing! The team is very understanding and listens to your needs and requirements. I felt so much better and so relaxed after this! My partner did the Foot reflexology and was very happy with it as well.

Been in this place twice for couple massage. As always very satisfied with their service! Massage was very relaxing and worth the money. They will really maximised your time. Offered with tea after massage.

The second time we went there since we already booked them in advance they basically open on that day only for us, as I cannot reschedule in different day. They also suggested activities and restaurants to try on around the area!

Thanks so much! Will be coming back for my third massage soon! 😊

I had a 60min deep tissue massage and cannot rate Daylesford Traditional Chinese Massage more highly. My practitioner was clearly so experienced, and guided the session based on what he could actually feel my back and neck needed, rather than just going through the motions. Will definitely return. Thank you!

We just had the most relaxing massage from this massage place in Daylesford. We would highly recommend this place. The staffs are super nice, professional and are excellent with their massage techniques. The ambience is also so relaxing with beautiful music 🎵. We appreciate the little cup of tea afterwards. Thank you team 😊

This morning I went for the first time. Booked a 60 minute deep tissue massage - it was fantastic, released a lot of stuck muscles and my knee feels like it's functioning properly again. Thank you, I will be back soon.
